

SEAWINCH® 01308 456232

REAL PULLING POWER

About Seawinch®

We are a long-established company, designing and building a huge range of line hauling equipment, from portable compact haulers through to hydraulic line haulers and power units. Our equipment is manufactured to the exacting standards of rugged reliability demanded and expected in the fishing industry, marine research, oil exploration, mining & forestry.

We manufacture all equipment in our own workshops and on sight foundry, using the highest quality components - if it can be made from stainless steel, it is. If it can't, it's galvanized. If it needs to be aluminium, then it's marine grade and our sheaves are made from high grade cast iron. All our equipment is made to impossibly high standards - our own.

We also carry a full stock of spares and provide technical and maintenance services as required.

For further information, please contact us on 01308 456232 or visit our website at www.seawinch.com

Line Haulers

Please see below for details of our range of line haulers. If you do not find exactly what you are looking for, please contact us as we may still be able to help.

Line Hauler - 10" Sheave Line Hauler

Available for Davit, "P" Bracket, Console or Bulkhead mounting.

- 250lbs to 850lbs pull
- Galvanized steel sheaves
- Marine grade aluminium base
- Simple, robust construction
- Powerful hydraulic gear motors
- Capstan head available

Line Hauler - 11" Sheave Line Hauler

Available for Davit, "P" Bracket, Console or Bulkhead mounting.

- 550lbs to 1/2 ton pull
- Cast iron sheaves
- Marine grade aluminium base
- Simple, robust construction
- Powerful hydraulic gear motors
- Capstan head available

Line Hauler - 13" Sheave Line Hauler

Available for Davit, "P" Bracket, Console or Bulkhead mounting.

- 850lbs to 3/4 ton pull
- Cast iron sheaves
- Marine grade aluminium base
- Simple, robust construction
- Powerful hydraulic gear motors
- Capstan head available

Line Hauler - 16" Sheave Line Hauler

Available for Davit, "P" Bracket, Console or Bulkhead mounting.

- 3/4 ton to 1 ton pull
- Cast iron sheaves
- Marine grade aluminium base
- Simple, robust construction
- Powerful hydraulic gear motors
- Capstan head available

Net Haulers

Please see below for details of our range of net haulers. If you do not find exactly what you are looking for, please contact us as we may still be able to help.

Net Haulers - Neptune 128/168

- 12" or 16" wide x 9" dia powered roller
- 5" idler roller
- 10" sheaves, lock-off swivel head
- Available in 450, 550 and 850lbs pull
- High grade aluminium & stainless steel construction
- Weight 50/70 kilos
- Suitable for main engine direct or pulley drive or Power Pack

Combination Net/Line Hauler

- 10" wide conical drum
- 10" sheaves, lock-off swivel head
- High grade aluminium & stainless steel construction
- Weight 35 kilos
- Suitable for use with either Power Pack or inboard hydraulics

Compact Haulers

Please see below for details of our range of compact haulers. If you do not find exactly what you are looking for, please contact us as we may still be able to help.

Compact Hauler - 400 Series

- Honda 4.0hp engine
- Single lever control
- 450lbs pull at 160 F/M
- 10" line plates or 4" capstan
- Weight 35 kilos

Compact Hauler - 600 Series

- Honda 5.5hp engine
- Single lever control
- 600 - 650lbs pull at 160 F/M
- 10" line plates or capstan
- Weight 46 kilos

Mini Hydraulics

Please see below for details of our range of mini hydraulics. If you do not find exactly what you are looking for, please contact us as we may still be able to help.

Mini Hydraulic Hauler

The Seawinch Mini Hydraulic hauler has established itself as a firm favourite with inshore fisherman.

- Stainless steel construction
- Robust and powerful
- 10" sheaves, lock-off swivel head
- Motor mounted control valve
- Suitable for use with either Power Pack or inboard hydraulics
- Weight 32 kilos
- Available with 250, 450 & 550lbs pull

Short Boom Hauler

Short boom hauler specifically designed for small boats. The weight displacement is inside the gunwhale, with 2-stage roller positions allowing 85% rope engagement for shallow water hauling.

- 10" sheaves, lock-off swivel unit
- Motor mounted control valve
- Suitable for use with either Power Packs or inboard hydraulics
- Stainless steel construction
- Weight 40 kilos

Packages

Please see below for details of our range of packages. If you do not find exactly what you are looking for, please contact us as we may still be able to help.

Mini Hydraulic Hauler Set

The Mini Hydraulic System was originally designed for a small commercial boat in the Orkney Islands 10 years ago. The unit has since been upgraded to a stainless steel framework.

- Stainless steel construction
- 250, 450 and 550lbs pull
- 10" sheaves, lock-off swivel head
- Motor mounted control valve
- Supplied with either 4.0hp or 5.5hp Power Pack
- 3 metres of hoses & fittings
- Weight 68 kilos

Hydraulics

Please see below for details of our range of hydraulics. If you do not find exactly what you are looking for, please contact us as we may still be able to help.

Valves

We have a large selection of control valves available from stock.

- 3/8", 1/2" and 3/4" ports
- Speed Control
- FWD, REV and Neutral
- Flow Control
- Motor Mounted
- Fully proportional and load sensing valves also available

Clutches

Clutches always available from stock for same day dispatch.

- IM05 for Group 1 & 2 Pumps (20mm input shaft)
- IM1 for Group 2 & 3 Pumps (28mm input shaft)
- IM2 for Group 3 to 4 Pumps (42mm input shaft)

Pumps

A range of Parker pumps available from stock.

- Group 1 up to 6cc
- Group 2 up to 23cc
- Group 3 up to 70cc
- Group 3.5 and 4 available by request up to 200cc
- Load sensing piston pumps also available

Motors

Spare motors for our range of haulers always available from stock for same day dispatch

- 1 ton 40mm shaft
- 3/4 ton 32mm shaft
- 1/2 ton 32mm shaft
- 1/4 ton 25 mm shaft
- Imperial shafts available

Hoses & Fittings

We carry a comprehensive range of hose and fittings in stock

- Hose 1/4 to 1"
- Hydraulic adaptors 1/4 to 1 1/2 BSP
- Made to measure service

Power Packs & Engines

Please see below for details of our range of power pack & engines. If you do not find exactly what you are looking for, please contact us as we may still be able to help.

Hydraulic Power Packs

- Stainless steel tank and base
- Honda engines
- Hydraulic pump in tank
- Pressure relief valve fitted as standard
- Return line filter
- Available up to 13hp

Special order Power packs

- Built to your requirements
- Multi port systems
- Petrol, Diesel or Electric

Honda Engines

Seawinch exclusively use Honda engines as they are robust and extremely reliable. For more information on Honda engines, please click on the link below:

HONDA
ENGINES

Capstans

Please see below for details of our range of capstans. If you do not find exactly what you are looking for, please contact us as we may still be able to help.

4.5" Capstan

- 1/4 ton - 1/2 ton pull
- Aluminium or cast iron
- Can be run on inboard hydraulics or power pack

5.5" Capstan

- 1/2 ton to 3/4 ton pull
- Aluminium or cast iron
- Can be run on inboard hydraulics or power pack

Tanks

Please see below for details of our range of tanks. If you do not find exactly what you are looking for, please contact us as we may still be able to help.

Tanks

We stock several standard sizes of hydraulic tanks all manufactured from stainless steel

- 19 to 100ltr
- Sight gauge
- Suction strainer
- Return filter
- Custom tanks made to order

Davits & Hanging Blocks

Please see below for details of our range of davits & hanging blocks. If you do not find exactly what you are looking for, please contact us as we may still be able to help.

Davits

- 1/4 ton to 1 ton
- Stainless Steel
- Galvanized
- Mild Steel

Hanging Blocks

- 1/4 ton to 1 ton
- 4" Roller
- 5" Roller
- Stainless Steel
- Mild Steel

Spares & Servicing

Whenever you buy Seawinch® equipment, you can rest assured that you are backed by spares and servicing that are second to none.

We carry full stocks of spares for our complete range of products, and provide comprehensive technical & maintenance support.

Bespoke Engineering

Whilst we believe that our range of products is as comprehensive as we can make it, there will always be occasions where you need something a little different. If you would like a standard piece of equipment made shorter, longer, fatter, thinner, stronger or weaker just let us know.

If you require specific piece of equipment to lift a certain load or fit in a certain space, we have many years of experience in design and manufacturing, and will do our best to come up with a solution for you from our own workshops and on site foundry.

Exports

All Seawinch® products are manufactured in the UK, but can be exported to anywhere in the world.

Please contact us for further information or for more details of shipping costs on any of our products.
